MCA Membership Benefits

"The information and assistance provided by MCA on sales tax compliance has saved us more than 3 times the membership dues just in accounting and legal fees."

Pat Wessels, Kienstra Enterprises, Inc., Town and Country, Missouri

"The informational updates you generate from the legislative and political arena, the environmental status for producing members, and the organization structure, ie website, directory and very dependable staff all greatly benefit the members."

Bob Brooks, Ash Grove Cement Company, Joplin, Missouri

"As a small producer, I do not have the time or resources to follow daily developments in government, safety, DNR issues, etc. The staff of MCA does a great job of monitoring this and keeps the membership informed on an "as needed" basis."

Jane Martin, Scott's Concrete, Camdenton, Missouri

"The benefit I derive from my MCA membership are many. None more important than the promotion, sharing and support of the industry in which I make my living and my family and friends rely. It has been said that concrete is the most widely used construction material in the world. The impact and information provided by the Association can only underscore the importance of the product we provide and help us grow together."

Richard Dansdill, W.R. Grace & Company, Lake St. Louis, Missouri

"Our membership in the MCA helps our business by providing a voice for our industry at the State Capitol. The MCA Keeps us informed on new legislative action, along with rules and regulations from State and Federal regulatory agencies."

Robert Day, MO Mobile Concrete, Trenton, Missouri

"Being a producer of concrete block and paver products, we represent a relatively small industry. So our membership in the Missouri Concrete Association is vital to our business in that we remain a partner with other concrete producers in our state, experiencing the same general business management challenges."

Paul Wienke, Kirchner Block & Brick, Inc., Bridgeton, Missouri

"The Missouri Concrete Association membership allows me the opportunity to receive industry specific training and education—these things are critical to our business and the industry as a whole."

Steven R. Obermann, Rose Concrete Products, Inc., Scott City, Missouri

MCA Membership Includes:

- MCA Legislative and Regulatory Updates
- MCA PAC
- MCA Website
- MCA Directory

"Being a member of MCA has greatly enhanced my continued knowledge of the industry, as the Association keeps up with current issues that affect me and my company as a member. The relationships you build upon represent a healthy combination of friendship and business camaraderie that you know you can depend on when situations or issues arise throughout the work day."
